5.1.4. Mid-Match Communications

Aside from the Tournament Organizer, only the Coach may communicate with the Team during a match.

The Coach may communicate with the Team until the Tournament Organizer initiates the start of the map, prior to the creation of the game lobby. At the moment the map starts, the Coach will be muted in the TeamSpeak server until the end of the map.

5.2. Online Processes (Applicable only for Playoffs)

5.2.1. Match Process

Prior to all matches, the Tournament Organizer will establish a match channel in the MNEB EU Champions Discord with the two Teams representatives invited. This will be the communication method for match coordination including map bans, technical issues, match issues or general

Admin support. Teams will follow the instructions provided by the Tournament Officials, at all times.

On a match day, all Teams will connect and check-in with a Tournament Official in the designated Discord channels and confirm the start of the map ban on the OPL platform for the match as well as address and concerns or questions they may have. The default time for all Teams to connect and check-in during regularly scheduled match days is 1 hour prior to the match start time. Check-in time is subject to change by the Tournament Organizer.

Map-bans must be done latest 45 minutes before the scheduled timeframe. In case a team has 2 matches in a row, the mapban for the 2nd match must start latest 5 minutes after the first match has finished.

At check-in, the Tournament Officials will at that time or, if necessary, during the following communications in the Discord, advise the Team when to be prepared to play their match. It is the responsibility of the Team to follow up and respond to messages in the Discord as times may fluctuate and Teams may need to be ready to play at a different time than initially instructed.

At the start of the match, a designated Observer will establish the game and, upon confirmation by the Tournament Officials, invite both Teams into the lobby. The Tournament Officials will coordinate with the Observer to start the match when both the Teams and Production and Broadcasting Staff are prepared.

After the last game of the match, the Tournament Officials will confirm with both Teams when they are allowed to disconnect from the lobby and either attend a post-match interview, content segment or activity or be released from the match. Teams are prohibited from leaving the match and Discord channel until the Tournament Officials has confirmed they are allowed to do so.

5.2.2. Match Connection

All Teams, Players and Coach are responsible for their own hardware, network and internet connections and technical equipment to participate to the Matches. Attempting to interfere with the connection, such as throttling the bandwidth of a PC or internet network is against the Rules. Abusing any such methods can result in disqualification or bans.

A match will not be rescheduled due to technical problems or missing players. Should a team not be able to compete with the roster registered for the tournament, the match will be considered a forfeit and the win will be awarded to the opponent team.

5.2.3. Maximum Latency

The maximum latency is 120ms. If a player repeatedly exceeds this limit, a rehost must first take place before a match protest may be opened. If a protest is opened, the match will be interrupted and, if the problem is not solved, must be played to the end with the remaining players. For a protest to be valid, at least 3 screenshots over the period of 2 rounds must be submitted showing the latency violation.

5.2.4. Server Location

The default Server Location for MNEB EU Champions is EU-West. Teams may petition the

admin to change the server location. Both teams must agree on the location of the new server.

5.2.5. Game version for online play

All matches played online will do so using the current game update of Rainbow Six Siege, unless otherwise stated by the Tournament Organizer.

5.2.6. Required Software for Online Play

5.2.6.1. Anti-Cheat Software MOSS

MOSS Anti-Cheat is a requirement for competing in any EML Challenger Circuit competition. MOSS Anti-Cheat can be downloaded [here](#). Both teams are also obliged to upload the MOSS files within 20 minutes of the end of the match without being asked.

The process for MOSS uploads will be communicated through official channels such as the OPL match page or the MNEB EU Champions Discord, in case Players are experiencing issues uploading to the MNEB EU Champions website.

During Qualifiers, teams may be asked to provide their MOSS files upon admin request and will have 10 minutes to do so. If teams are unable to provide MOSS files for all players within the allotted time they will be disqualified from the Qualifier.

Teams that wish to protest a match or team and flag to admins regarding MOSS checks must do so immediately after the conclusion of a match and provide evidence in relation to the MNEB EU Champions Qualifier. Tournament Officials will not accept evidence unrelated to the Qualifier(s) or outdated/circumstantial evidence posted or conducted outside of the tournament(s) and event.

5.2.6.2. Incomplete MOSS Files

If a MOSS file does not contain all the necessary contents for completeness, it is considered invalid and will not be evaluated. A complete MOSS file includes the following files:

- Correct parameters: Rainbow Six Siege
- Screenshots of all connected and listed screens
- Logfile.log

5.2.6.3. Black screenshots from MOSS

So-called "black images" are considered "black images" as soon as at least one screen of the screenshot is black. A submitted moss file may not contain more than 30% of black images. Otherwise, the MOSS file is considered invalid and will not be evaluated.

5.2.6.4. Edited MOSS files

If a demonstrably edited or invalid MOSS file is submitted, it will not be scored and will be deemed not to have been submitted.

5.2.6.5. Unreliability of MOSS

If a crash occurs in MOSS during a round, the opponent must be informed immediately. The round must then be interrupted and is repeated from the moment of the crash. If the crash is only noticed after more than two rounds, the round is repeated from the current round and the opposing team wins the skipped rounds. Tournament Officials must be notified through official channels if issues relating to MOSS occur.

5.2.6.6. MOSS File Data Collection and Privacy Compliance

MOSS files and any Personal Data collected from players, including in-game screenshots and log files, will be handled in compliance with the European Union's General Data Protection Regulation (GDPR). The following terms apply in conjunction with Section 8.3 of the EML Challenger Circuit Rulebook:

- **Consent:** Players must provide explicit, informed consent for the collection, storage, and processing of MOSS files and personal data. By accepting these Rules and participating in MNEB EU Champions, players agree to the use of their data as described in this Section 9.7 of this MNEB EU Champions Rulebook and Section 8.3 of the [EML Challenger Circuit Rulebook](#).
- **Purpose Limitation:** The data collected will be used solely for tournament-related purposes, including ensuring tournament integrity, anti-cheat enforcement, and match integrity reviews. The data will not be used for any commercial purposes or shared beyond those required to uphold tournament operations.
- **Access to Data:** Only UBISOFT, the Tournament Organizer, and authorised Tournament Officials will have access to MOSS files and Player information. These parties will handle the data securely and in accordance with GDPR.
- **Data Minimization:** Only the data necessary for ensuring fair play and compliance with the Rules will be collected. Unnecessary or excessive data will not be processed or stored.

5.3. LAN Match Process

5.3.1. Match Start Times

The Organizer may amend and/or re-order the previously communicated Match start time at its discretion. Teams shall adhere at all times to the time specified by the Tournament Organizer to attend their scheduled Matches.

Unless communicated otherwise, all Matches will be using an accelerated schedule meaning that Teams' call time may be earlier than scheduled and communicated to Teams.

If a Team does not attend a given Match at the starting time communicated by the Tournament Organizer, meaning that one (1) or more of its Players are not in the Game Lobby ready to begin the Match at the starting time communicated by the Tournament Organizer, then Sanction(s) set forth in 7.2.2 will be issued.

Any of the aforementioned fines will be applied as per Section 6.1 of the EML Challenger Circuit Rulebook.

5.3.2. Pre-Match availability

All Players must be ready to play at least forty-five (45) minutes before the scheduled Match time of their Team. Matches are scheduled to be played back-to-back. Teams will be informed if and when a Match is expected to finish early, leading to an adjustment of the schedule for the day and leading to their next Match likely to have to be played earlier than initially scheduled.

The Map Selection Process must commence once the previous Match-up starts or at least one (1) hour before the scheduled start time. At one (1) hour before the scheduled Match starting time, Tournament Officials will confirm the eligibility of each Team's Roster. Both Teams must complete the Map Selection Process up to forty-five (45) minutes before the scheduled Match.

Players must be ready in the Game Lobby at least ten (10) minutes before the Match starting time.

5.3.3. Match availability

Players and their Coach must remain at all time within the Competition Area during their Match unless specifically approved to leave by Tournament Officials. This includes during Tactical Pauses and Technical Timeouts.

5.3.4. Post Map Break

When teams are expected to play two or more maps consecutively, they will be given a 5-minute break between the end of the previous Map and the beginning of the next Map. If teams do not return by the time 5 minutes have passed, they may be issued a penalty determined at the Tournament Organizer's discretion.

5.4. Issues During a Match

This Section outlines the rules and conditions in which a technical pause or rehost may be permitted. Any issues that occur outside of either the listed rehost conditions or times will be ineligible for rehost.

5.4.1. Technical Pause

The process set forth in Section 5.1.7.1 of the [EML Challenger Circuit Rulebook](#) shall apply for Technical Pauses in MNEB EU Champions.

5.4.2. Rehost

5.4.2.1. Conditions for Rehost

Rehosts are restricted to 1 rehost per Team, per game/map in a match, and may only be requested in the following cases and times:

	Conditions for Rehost
Preparation Phase	Any technical issue including the game and server, Player disconnects and/or authorized software or hardware problem that occurs before the start of the Preparation Phase or up to thirty (30) seconds once the Preparation Phase has started
Action Phase	- Any technical issue including the game and server, Player disconnects and/or authorized software or hardware problem that occurs up to the first thirty (30) seconds of the Action phase and if no damage has been taken by any player; or - At any time during the Action phase: - In case of Player Observer-related issues; and/or - Player is unable to control or move the Operator - Game mechanic issues (E.g. shooting, reloading, movement, gadgets or equipment) - For clarity, if a Player leaves the Match after the first 30 seconds of the Action Phase have passed or intentionally leaves the game after his own Team has taken damage, the current round must be played to the end.

The Tournament Organizer maintains the discretion to issue a rehost at any time and for any reason in the interest of competitive integrity.

5.4.2.2. Requesting a Rehost

The team that wants to use a rehost must have completely left the lobby, otherwise the round must be played to the end.

No confirmation from an admin or observer is required for a rehost, but the rehost must be communicated in the R6 MNEB EU Champions Discord with the note "Rehost @Tournament Admin". If a team leaves the match due to a protest, their rehost will not be honoured. Should a team, 10 minutes after the rehost, not be fully in the match lobby, the match must continue with the players present. Alternatively, a match protest may be opened.

Should a rehost have to be made due to publisher-side problems (e.g. high ping in the entire lobby), this will not be credited to either team.

5.4.2.3. Re-host continuation

In the case of a rehost, Teams may select a different Operator, equipment, gadget, loadout,

bomb and starting site.

Between rounds, the player who left the game can reconnect or a rehost can be claimed. If a player repeatedly disconnects and the rehost has already been redeemed, the team must finish the map with the remaining players.

5.5. Support Request

Support requests are indirect or non-match related requests, which concern purely informative, administrative, or organisational concerns of the Teams towards the tournament management. A support request can be submitted via the dedicated support channel integrated on the MNEB EU Champions [Discord server](#). Support requests that are not submitted via the official support channel are invalid and cannot be used as a reference. This rule also includes personal or “direct” messages to Tournament Officials.

5.6. Match Protests

Protests are directly match-related issues or allegations that determine the course or outcome of a match. A protest may be claimed by any team at any time during the match.

If a Team considers that the opponent Team is committing a Rules violation during the Match which has not been addressed by Tournament Officials, then the Team claiming that such breach of Rule occurred shall notify such breach of Rules to Tournament Officials at the end of Map being sent as an official e-mail to verseny@hunesz.hu. Team and its Players are not permitted to interrupt the flow of the Match to notify a breach of the Rules and may be themselves exposed to Sanction(s) if doing so.

Protests not made through official channels to reach Tournament Officials are invalid and cannot be used as a reference. This rule also includes personal or “direct” messages to Tournament Officials. A protest is only valid if the result has not been confirmed. If the match has already ended and the result has been confirmed, a protest will no longer be accepted and processed.

The Tournament Organizer reserves the right to overrule this rule in case of proven cheating. The Tournament Officials always decide based on the presumption of innocence. This means that the protester must present valid evidence or arguments, otherwise the protest will not be processed due to insufficient evidence.

5.7. Confidentiality

All contents of protests, support requests and correspondence with the admins or the tournament management are to be treated confidentially and may not be published in picture, text or in analogous reproduction, as further set out in Section 8.2 of the [EML Challenger Circuit Rulebook](#). A publication requires the agreement of the Tournament Organizer.

6. Game Rules for MNEB EU Champions

6.1. Banned Operators or other interim bans

In order to maintain the highest level of competitive integrity, at times of review, actions, Operators, or other mechanics may be restricted from use. The following Operators are banned from competitive play in the MNEB EU Champions tournament: None

6.2. Unintended Mechanics

An unintended mechanic is a condition or action that may allow a Player or Team to act or receive an advantage in a way that was not specifically designed, commonly referred terms include, but not limited to, exploit, glitch, bug, gimmick, and hack. At times, unintended mechanics may create an unfavourable result for a Player or Team.

Due to the fluctuating state of unintended mechanics, a global list of permitted and banned items will be maintained and displayed publicly. Currently, the list is contained in Section 5.1.4.5 of the EML Challenger Circuit Rulebook.

A non-exhaustive list of known unintended mechanics that have been approved or banned for use in MNEB EU Champions, together with the process for Teams to escalate to Tournament Officials any usage of bug or in-game exploits not included in the list, may be found in Section 5.1.4.6 of the [EML Challenger Circuit Rulebook](#). Any Team or Player shall also report issues for review and consideration on [R6FIX](#).

As the list of unknown or non-addressed unintended mechanics increases past this list, the Tournament Organizer, on a case-by-case basis, will determine the final ruling and impact of items not specified below.

It is in Teams' best interest to surface any unintended mechanics not listed here and await the Tournament Organizer approval before implementing their use, understanding that there is time needed to review and provide feedback on such items. The Tournament Organizer will

determine if the use of unintended mechanics influences the outcome of a match and award or penalize activities accordingly.

6.3. Prohibited Software, Applications & Services

The use of third-party software, any form of tampering with the game's code or servers or any gathering of information obtained from watching the match's broadcast while playing with the intention of, or potential to, create an unfair advantage for a Team or Player, is prohibited and subject any Player using such hardware or software to Sanction(s). The same applies to actions that give a player or team an advantage in any way. This applies in particular to the exploitation of bugs and glitches.

Any and all programs that allows/enables remote access to a PC and/or change, mark or hide an IP address, including but not limited to the following list, will be cause for immediate disqualification for the entire Team:

- TeamViewer
 - Parsec
 - RemotePC
 - LogMeIn
 - Remote Desktop Manager
-

- Chrome Remote Desktop
- Windows VPN
- NordVPN
- ProtonVPN
- OpenVPN
- Tor Network

7. Sanction(s) and Penalties

7.1. Definition and scope of punishment

Infringement of any of the rules, requirements and obligations presented in the EML Challenger Circuit Rulebook, this MNEB EU Champions Rulebook, the Code of Conduct, the Rainbow Six: Siege Code of Conduct and UBISOFT Terms of Use, may trigger competitive Sanction(s) and penalties as set forth in Section 6 of the EML Challenger Circuit Rulebook.

These Sanction(s) and penalties may be in addition to any other sanctions and penalties which may be applied on the UBISOFT account of the Player. Scope of punishment may vary, as illustrated in the table below, and may include, but is not limited to, fines, temporary and definitive suspension period(s) for a Team, Player or Team Staff member, round loss, map, or match forfeits:

Sanction Type	Description
Competitive warning	Lowest form punishment, a simple warning given to the Player or Team. Competitive warning may precede the application of further disciplinary actions.
Competitive suspensions and ban(s)	A Player or Team can be temporarily barred from competing in any MNEB EU Champions competition or in exceptional cases, if the gravity of the infraction justifies it, banned from MNEB EU Champions permanently. In addition, a Player or Team may be temporarily barred from competing in any MNEB EU Champions competition while the Tournament Organizer investigate, including through a third-party investigator if deemed necessary by the Tournament Organizer, in case of reports of Misbehaviour Incidents (as defined in Section 6.3 of the EML Challenger Circuit Rulebook).
Fines/loss of prize	Certain infractions perpetrated by a Team and/or one of its Players' or Team Staff may be penalised with monetary fines. In such an event, the fine will be applied as: (i) a deduction of the prize money earned by the applicable Team and withdrawn from any payment due to the applicable Team if constituting a prize money; or (ii) a prize pool forfeiture in case of temporary or permanent competitive suspension. The amount so deducted or forfeited will be donated to a charity of the Tournament Organizer's choice.
Points/Qualification withdrawal	Infractions committed in the context of MNEB EU Champions may trigger the withdrawal of a percentage of a Team's points within a specific stage, such as Groups, or a Qualification spot by either invitation or by earning such spot. Such withdrawal will be effective after all points have been distributed for the stage in which the infraction was committed.
Competitive penalties	Certain infractions perpetrated by a Team and/or one of its Players' may be penalised by a round loss, map loss or match forfeit depending on the severity of the infraction.

All aforementioned infractions may be combined and lead to more severe Sanction(s) in case of repeated infraction.

7.2. Minor Penalty Point System

This penalty point system is for minor infractions that fall outside the major points above to allow admins to raise tournament competitive standards.

Note: Major infractions such as cheating are addressed in Section 5.2 of the EML Challenger Circuit Rulebook and lead to Sanction(s) set forth in Section 6 of the EML Challenger Circuit Rulebook, while the penalty point system will focus on the smaller infractions often not covered in those scenarios. Punishments are given for rule violations within MNEB EU Champions. Punishments may consist of the following:

- Warnings
- Penalty points
- Default losses
- Player/team bans or disqualification

Depending on the incident in question, there may often be a combination of punishments issued. Any punishments will be communicated to participants via Discord.

7.2.1. Warnings

Official warnings may be given for first offences, at the discretion of the Tournament Officials. Any repeated offences of the same kind will lead to more severe punishments

7.2.2. Penalty Points

Penalty points are given for non-severe rulebook infractions including, but not limited to:

- Failing to submit match lineups by the requested time
- Being late for a match
- Delaying the broadcast
- Use of offensive language against other participants/league staff
- Failing to respect decisions of the tournament administration
- Deliberately deceiving league staff
- Failing to show up for matches
- Repeated rule-breaking

If a Team is to reach a TOTAL of 35 penalty points in MNEB EU Champions, then that Team will be automatically disqualified.

Each penalty points amounts to a one (1) percent deduction of any prize money a team earns in MNEB EU Champions.

Any prize pool deductions will be distributed evenly between the rest of the teams taking part in the tournament or to a charity of the Tournament Organizer's choosing. If there is no prize pool for the tournament (IE Qualifiers) then any points accumulated will transfer over to the stage in which teams qualified into.
